

PRODUCT

POPstore iBooth - Integrated Digital Kiosk

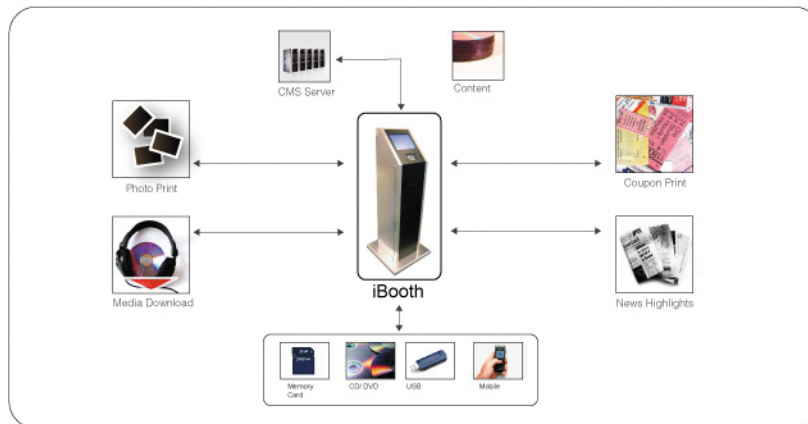

PRODUCT OVERVIEW

POPstore™ iBooth is a sophisticated kiosk platform that combines the most desired self-serve models into one roof. The goal for this “convenient kiosk” channel is to empower an engaging experience that personalizes the interaction with individual customer in ways directed by the customer. POPstore iBooth supports a wide range of self-service application through its multiple “faces” of interaction. These include digital media download, instant photofinishing, coupon printing and instant news updates. Typically, POPstore iBooth can be placed in closed communities and high traffic areas such as hotels, club houses, supermarkets, shopping malls, stations, airports and tourist spots.

FEATURE HIGHLIGHTS

- Integrated self-service transaction platform with fully automated functions
- Networked architecture that supports central management and remote monitoring
- Support digital content aggregation and on-demand media download
- Offer easy ordering and instant printing service for digital photofinishing
- Enable mobile interaction with bluetooth and 2D barcode technologies

HOW IT WORKS

TECHNICAL SPECIFICATIONS

Main Processor	Industrial PC with P4 grade CPU
Watchdog Timer	System Reset Logic
Memory/Storage	1G RAM / 80G HDD
Touchscreen Display	Capacitive Touch 10.4" TFT LCD Monitor
Receipt Printer	80mm Thermal Printing
2D Barcode Scanner	QR Code Scanning
Photo Printer	Thermal Dyesublimation Digital Printing
Bluetooth	Bluetooth 2.0
Operating System	Windows XP Pro
Network Support	LAN, Internet or WiFi
Physical Dimensions	360(D) x 320(W) x 1280(H) mm
Net Weight	Approx. 80kg
Power Input	AC 220V
Operating Temperature	0-60 °C
Non-Condensing Humidity	0-90%
